June 16, 2003

Dear Colleague:

As I think about the challenges facing today's radiology department, none is more frustrating than the constant need for staff recruiting. Much to my pleasure, my thanksgiving has been John Gomez and RadSciences Group. In the year and a half I have worked with them, they have been very punctual and have excellent follow through. They take care of everything.

They are easy to work with and the candidates have all been good candidates. I've worked with numerous recruiters and they typically just look for warm bodies. John does an excellent job of screening candidates and presenting my department; he does not waste my time.

On a scale of 1 to 10, I would rate him a 10 in service and a 10 in responsiveness. If I find myself in need, John is the first one I go to.

Sincerely,

Susan Austin
