

To Whom It May Concern:

A few years back, I was considering making a career change that would allow me the flexibility to spend more quality time with my family. About the same time, I received a telephone call from Dale Hannegan from RadSciences Group describing a job opportunity that seemed very interesting. As it turns out, it was. I worked through Dale to schedule an interview with a brand new outpatient center that was scheduled to open within a few weeks. It ended up being an excellent move for me, and my family.

Even today, I keep in touch with Dale who consistently keeps me up to speed on hiring trends and compensation related issues in the field. It has been great to associate with a firm that doesn't call you to bother you about recruitment, but tries to be a resource instead.

On a scale of 1-10, I would rank the service we get from RadSciences Group a 10! That is why our organization continues to use their services on an as needed basis.

Very Sincerely,

A handwritten signature in cursive script that reads "Tom Doyle".
