To Whom It May Concern:

It is a pleasure that I write this letter of reference for RadSciences Group.

After years of less than satisfactory experience from contingent and retained search firms alike I had become extremely skeptical about the claims of recruiting firms and their representatives. Nevertheless, I agreed to engage the services of RadSciences Group on our most challenging recruiting effort.

Within a relatively short period of time, John Gomez presented an exceptional candidate that was compatible with our needs and who was motivated to make a decision to join our radiology team. After just one interview this candidate accepted our offer, and is now making a contribution to the future successes of our hospital.

Overall, RadSciences Group provides a specialized service throughout the entire recruiting process. We secure their services over other firms because they take the time to get to know you on a personal level, provide consistent and accessible contact with the principals, recruit the candidate you're looking for and not the candidate who's simply available, and always have completed their work in a timely fashion when it comes to our searches. RadSciences Group knows and understands the health care market and recruits high quality individuals.

Sincerely,

Steve Slaughter
