

Dear Fellow Healthcare Professional,

I must begin by saying that I am completely satisfied with the quality of service provided to me by RadSciences Group and rate them a Perfect 10 – Excellent!

I have already spread the word within our organization regarding the quality of candidates as well as the individual and personal touch from the recruiter. I appreciate the fact that unlike most firms that give me twenty candidates to “choose” from, we were given the few select candidates that the recruiter believed would be the best “fit” for us.

Our recruiter was always on top of the process, never waiting a moment to see if the ball was going to drop. There was always a quick response and follow through!

Warmest Regards,

Randy Steffen RRT/RCP B.S.
